PokeGo

This is a game based on a famous Japanese cartoon Pokémon. You can play this game in two different modes- 'Endless Game' & 'Level Game'.

INSTRUCTIONS

Endless Game:-

1) In Endless/Infinite mode, Pikachu (player) will be running and there will be enemies trying to defeat you.

2) You will have to press the "SPACE BAR" to dodge/jump.

3) You will have 3 lives in the game.

4) If Pikachu comes in contact with the enemies, you will lose 1 life.

5) In case you lose all your lives, you can Replay the game with only 1 life. For this you shall press "Alt + R" key.

6) If you want to Restart the whole game, then you shall press "Ctrl + Shift + Enter" key.

7) You can enter full screen mode by press "F" key.

8)You can press "A" key after playing 2 minutes of playing game for 1 or 2 second if enemy is very close to you this will destroy enemy.

9) Along with the enemies, Ash Ketchum will also get spawned (Pikachu's trainer). If Pikachu comes in contact with him, you will gain points.

10) The POINTS, SCORE & HIGH SCORE will be displayed on top of your screen.
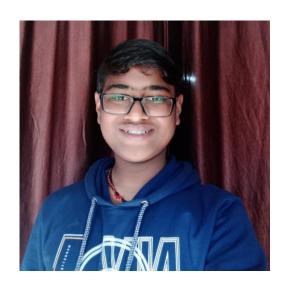

Level Game:-

(All the instructions and controls are similar to the ENDLESS GAME. Stay tuned- more levels will be added soon).

*Note- There is a special feature in this game. The background changes depending on the time zone and some features are not available for "Android" and "IOS" user and Not compatible with "MacOS" *
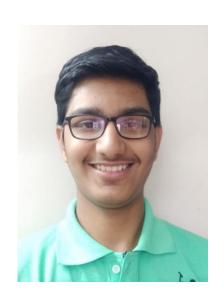

"ALL THE BEST" & ENJOY THE GAME
